

1993 Socata TBM 700A – N838RA | Asking \$995k

1993 Socata TBM700A

The TBM 700A is the first aircraft in Daher Socata's line of popular light business and utility aircraft. In 1990, the TBM 700A became the very first pressurized single-engine turboprop to become certified. Delivery of the aircraft began in 1991 and continued through the mid 1990's up until the final aircraft in the fleet (Serial Number 0142) was delivered in the year 2000.

Powered by a single Pratt & Whitney Canada PT6A engine, the TBM 700A is known for both reliability and speed. With a maximum cruise speed of 300 knots, this aircraft has earned its place as one of the fastest single-engine turboprops.

This TBM700A has only had 3 owners Since New! It is currently maintained & owner flown Part 91. The TBM700A is a great value in the single engine turbo prop market and this aircraft is move-in ready.

Located and hangered in Indiana.
